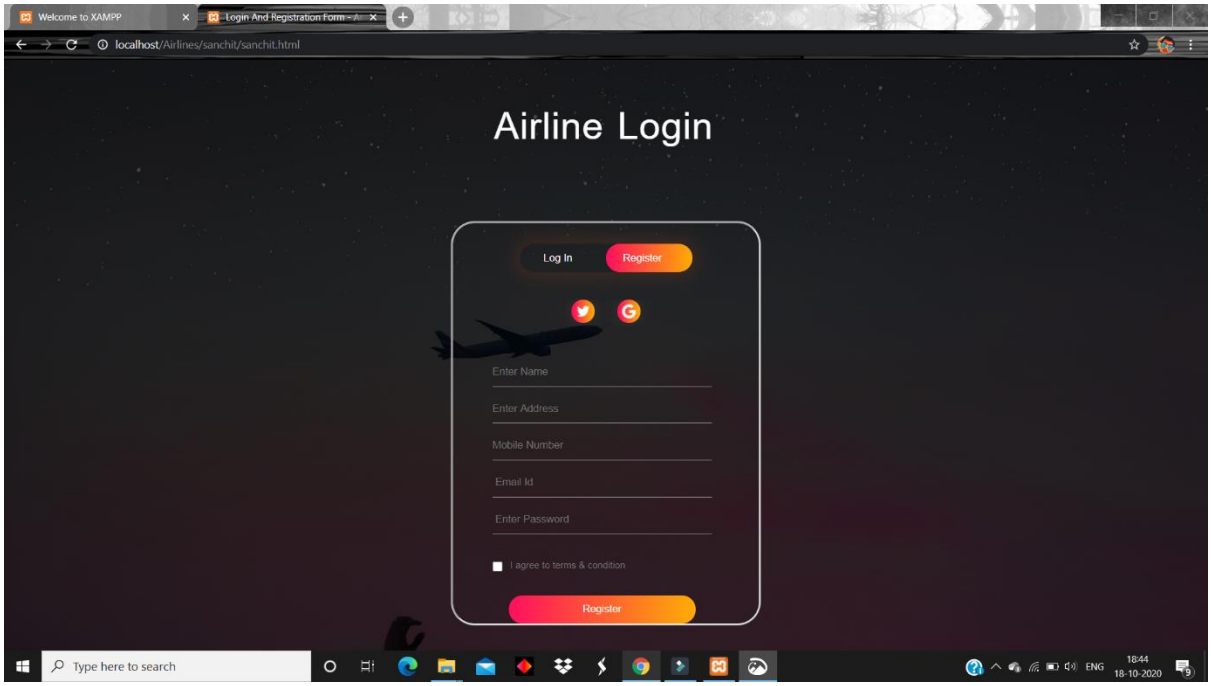
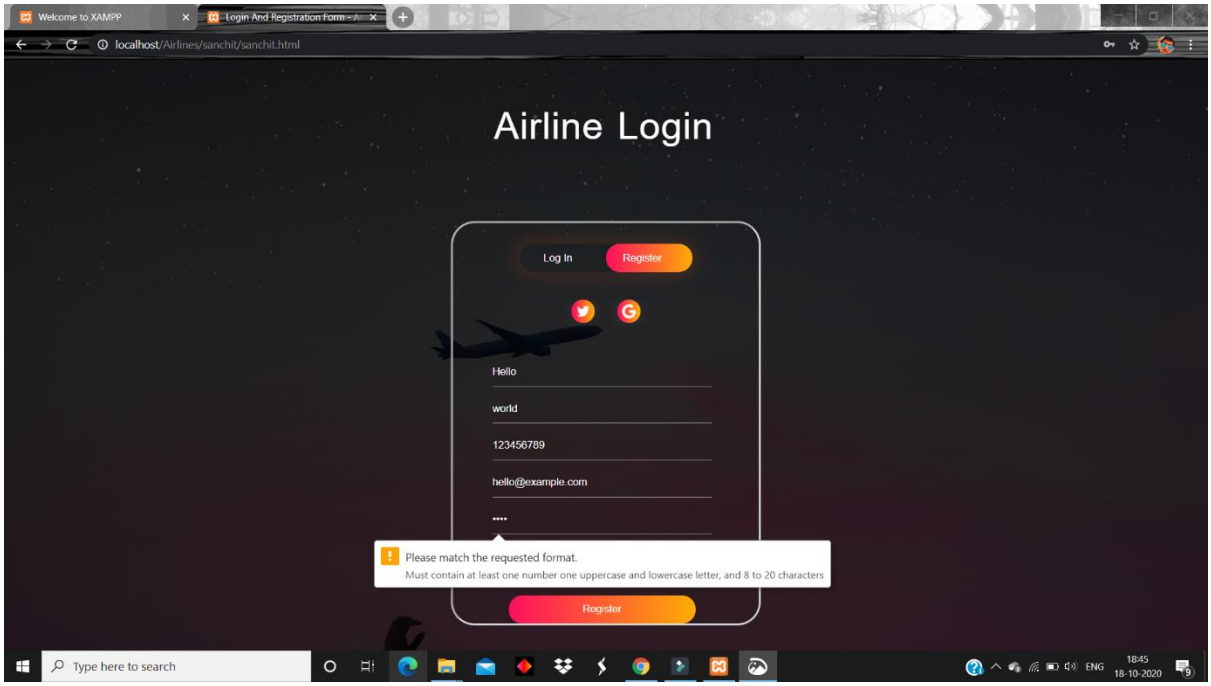
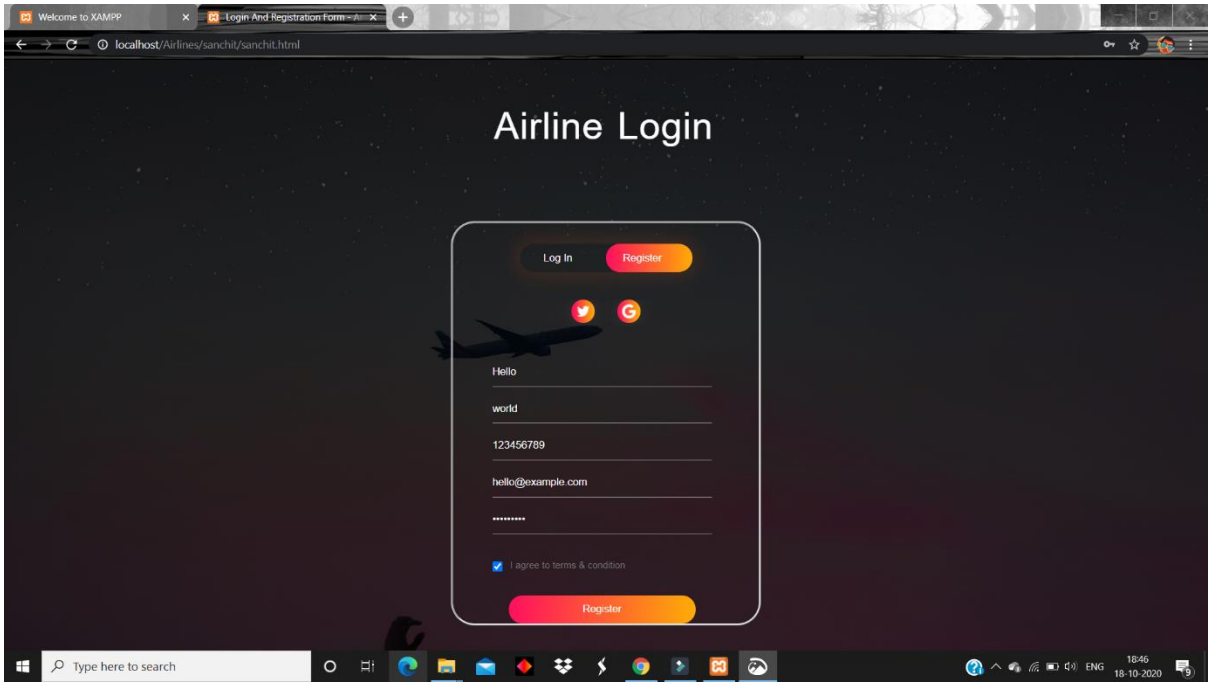
In the home page, we have ‘Booking’, ‘Enquiry’ and ‘Sign Up’ site in the top right corner.

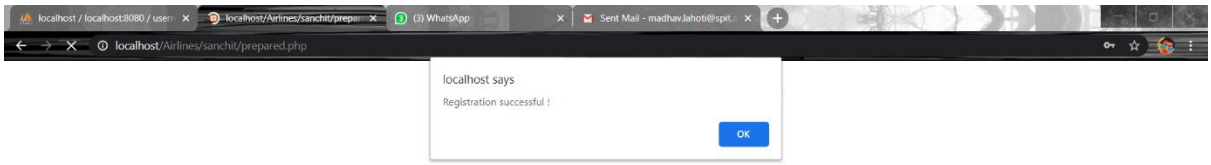
For designing part, we showed some pictures of famous cities like Sydney,etc, then we showed the steps to book airline tickets in a mobile phone, the most booked trips, the top 3 customer reviews about their flight experience, the common booking packages and a review page of a customer about their flight experience.

Registration Page:



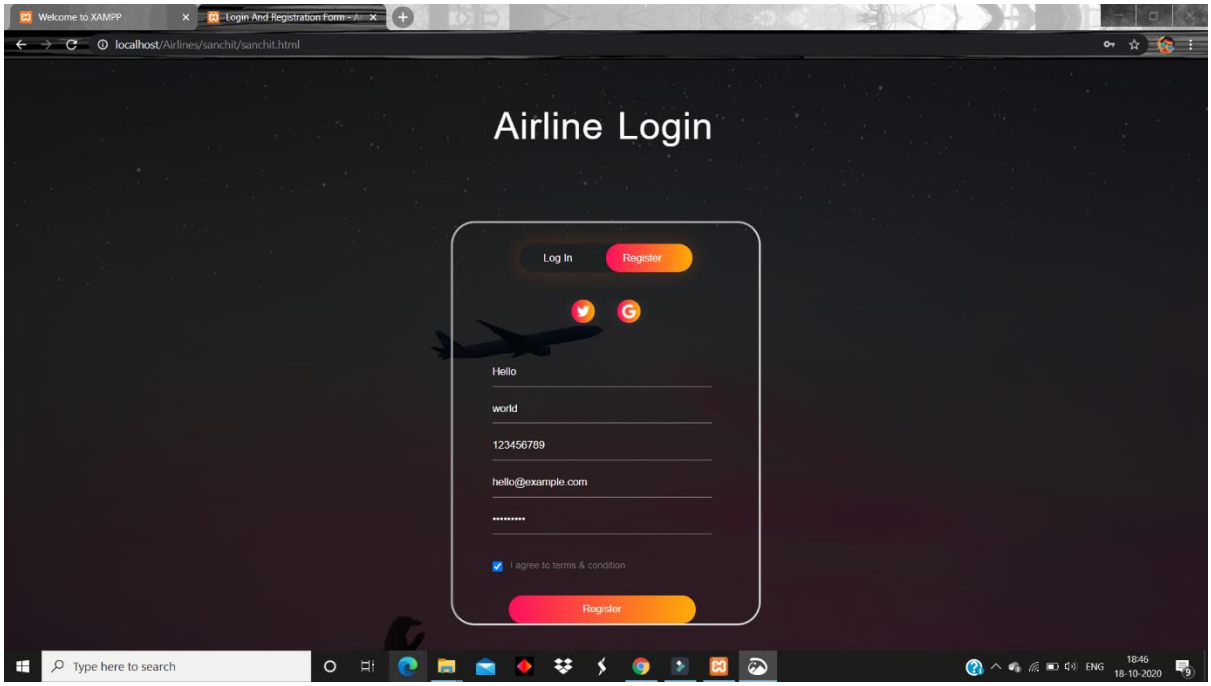


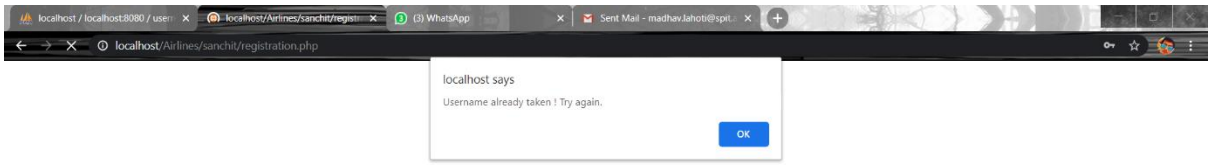




When we click Sign Up on the home page, first we need to register. In Registration, we enter the username, address, mobile number, email address and **valid passoword (**ie minimun 8 letters, atleast 1 digit, 1 uppercase and 1 special character)

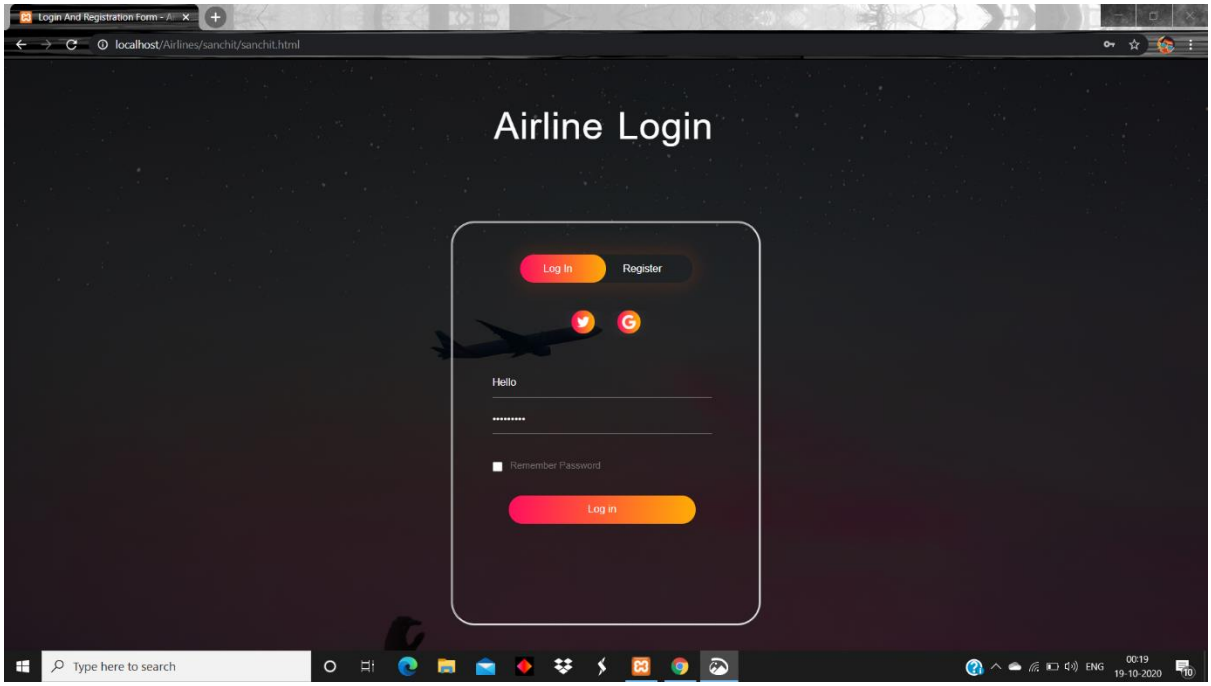
Note, if password entered in invalid, a message is shown to enter a valid password.





If user agains tries to register with a username already used (eg: username – ‘Hello’ was already used), so a pop-up message is shown that ‘Username already exists! Try again’.

Sign - in Page:



After registration, user goes to Sign Up page and enters the username and password and clicks on ‘Login’.

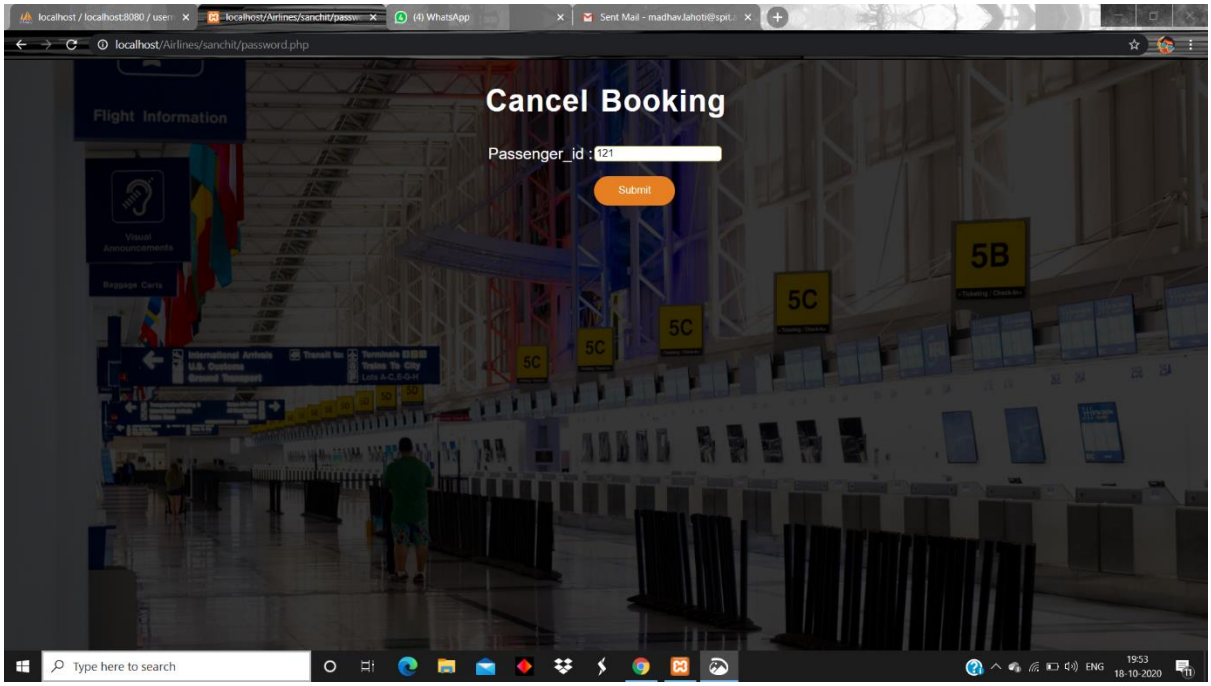
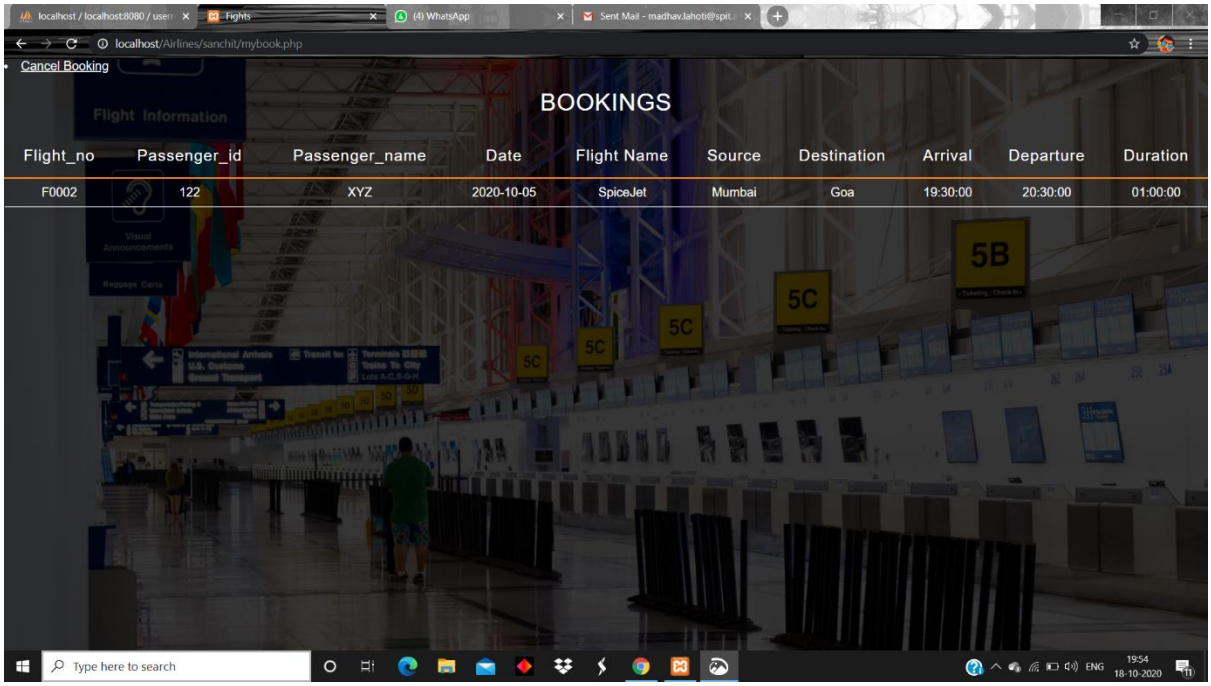
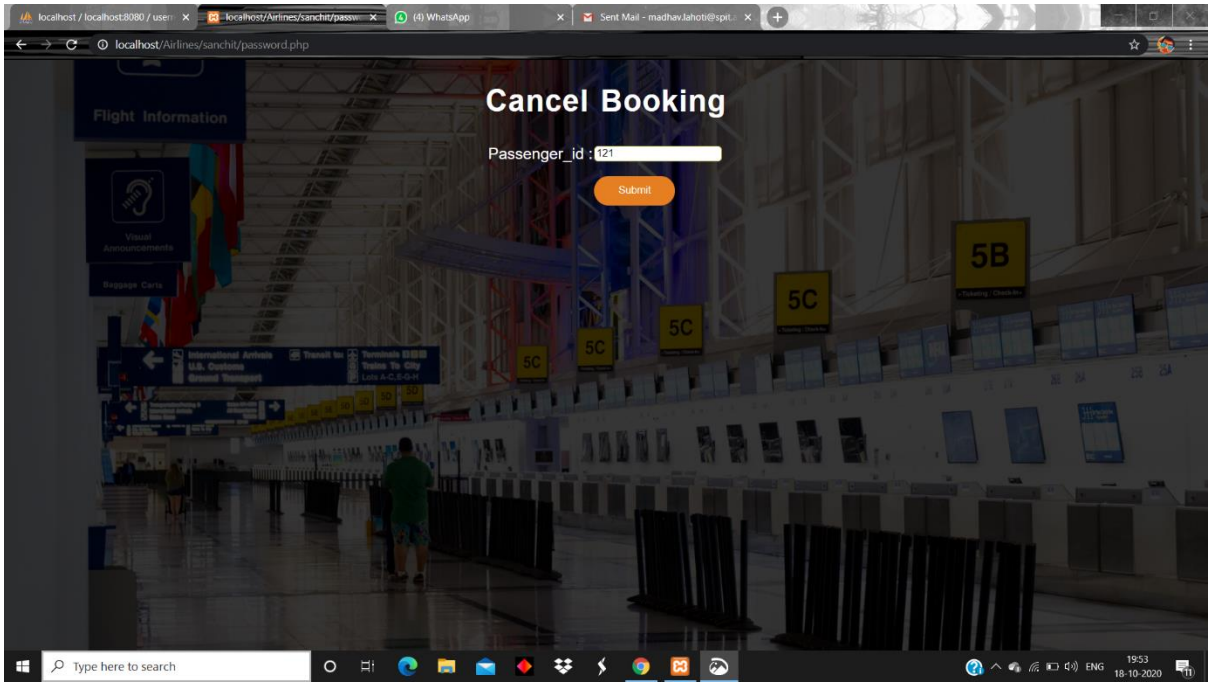
After login, the home page is shown where the options of ‘Booking’, ‘My Booking’, ‘Enquiry’ and ‘Logout’ is shown.

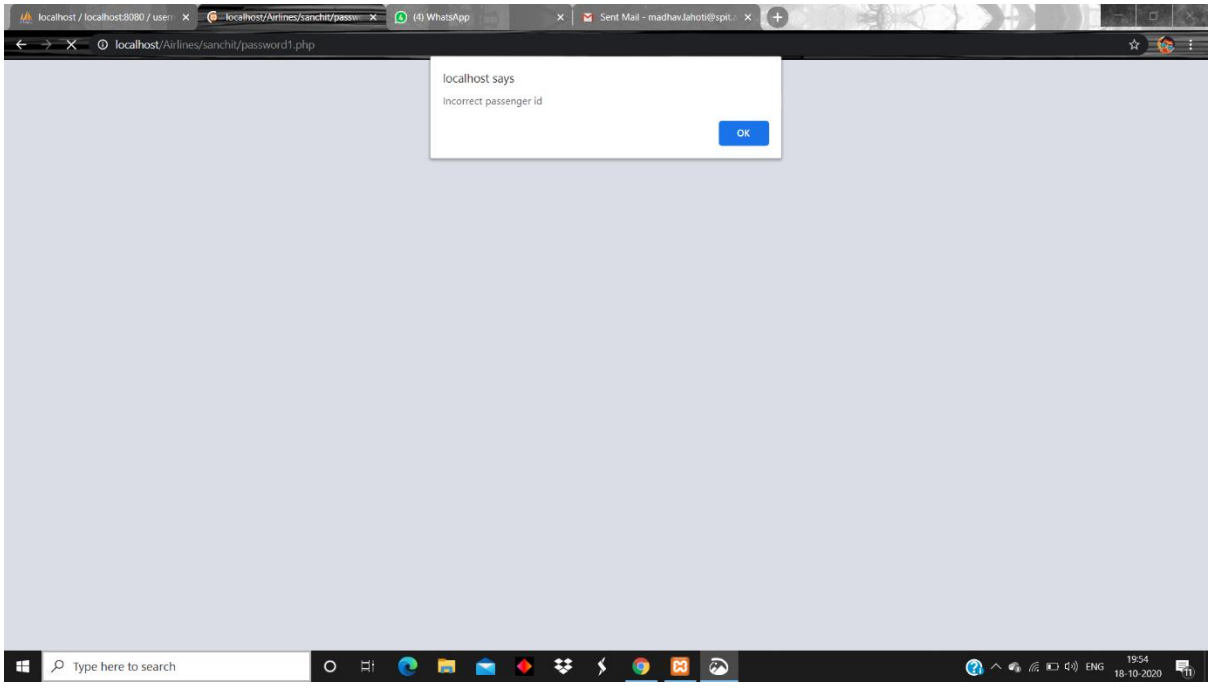
On clicking ‘Booking’, the user enters source, destination and date of flight, and then a pop-up message tells the user to remember the flight number they want to book, and then the flights available that day gets displayed. On clicking ‘Book’ on any flight, the user enters flight number and total number of passengers, then the passenger details (ie name, gender and passenger type (Kid, Adult or Elderly)). Then, on clicking ‘Book’, the booked tickets are displayed and (in home page), in ‘My Bookings’, the details of tickets booked is displayed.

Cancellation of Tickets Page:





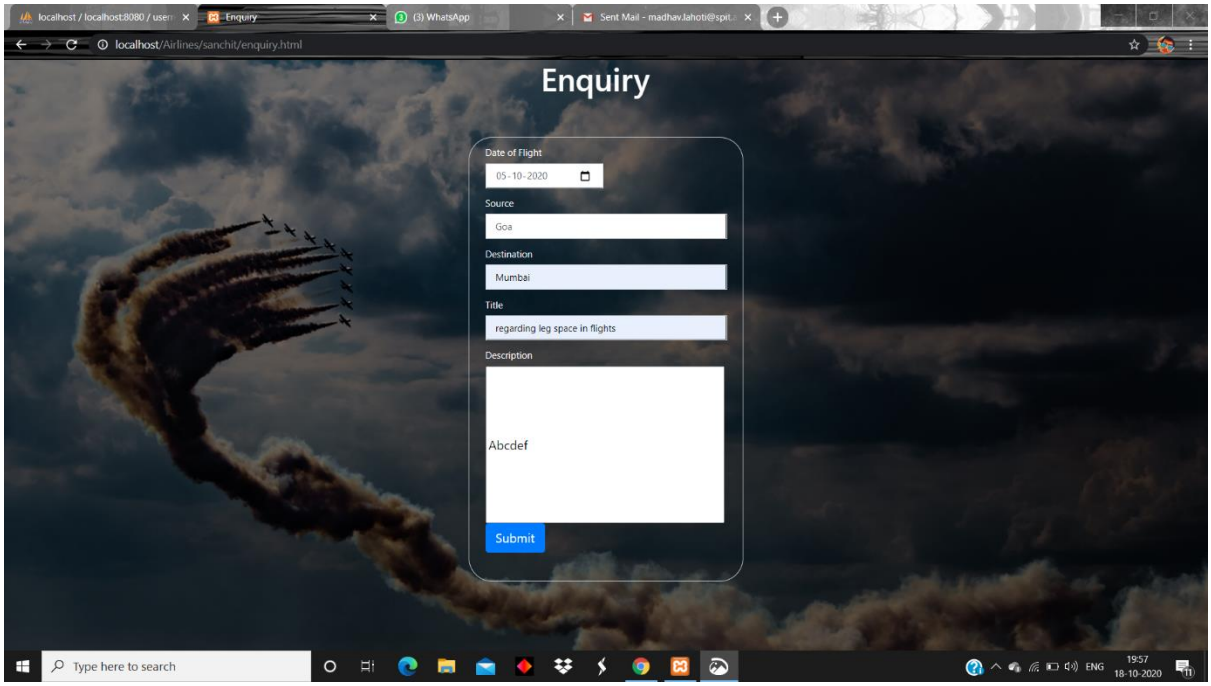


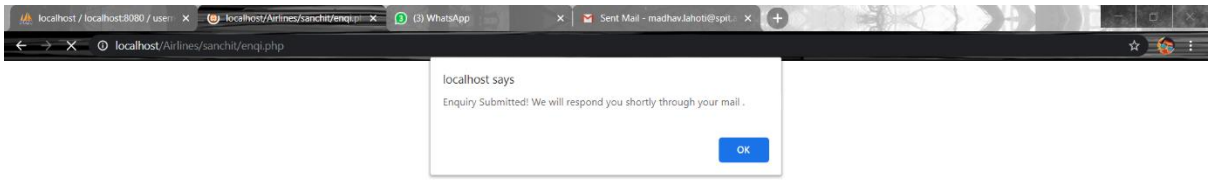


In ‘My Bookings’ page, in the ‘Cancel Booking’ option, the passenger enters his passenget id and the ticket gets cancelled from ‘My Bookings’ page.

Note, if invalid passenger id is written, then a pop-up message is displayed saying ‘Invalid Passenger id’.

Enquiry Page:





In the home page, in the ‘Enquiry’ option, the passenger enters the date of flight, source, destination and the title and description of his/her flight. After submitting, a pop-up message is displayed saying ‘Enquiry Submitted! We will respond you shortly through your mail’.
